

April 22, 2026

Good Morning I.S.201! My name is Esther Chen from class 852, and I am here for the Words of Wisdom Wednesday on behalf of the S.E.A.L team.

Today is Earth Day, a reminder that the planet we live on depends on the choices we make every day. Taking care of the environment isn't just about big actions, small habits matter too.

Things like throwing away trash properly, not wasting water, and being mindful of how much we use can all make a difference over time. When people work together, even small efforts add up.

Earth Day is also about being aware of how our actions affect the world around us. The environment is something everyone shares, so it's important to take responsibility for it. You don't have to do something huge to help. Simple choices can still have an impact. Being more aware and making better decisions is a good place to start.

Today is just a reminder to take care of what we all share and do your part, even in small ways.

Like Leonardo da Vinci, today's affirmation is: "I combine art, science, and invention."

Thank you for listening and have a World Collaboration Wednesday

S.E.A.L. Team Pledge

We are the Dyker S.E.A.L. Team

Positivity is our dream

We teach it every day

To help others live the optimistic way

We learn to control our emotions and feelings

So, we always have effective social dealings

No stone left unturned; no person left behind

Every member of our team has the power to be kind

We spread kindness to our friends, families, and those who need a smile

When facing hardships and adversity, the S.E.A.L. Team goes the extra mile
